

Queens County Farm Museum

Now Hiring: Farm Educators, School Year 2019-2020

About Queens County Farm Museum

Queens County Farm Museum is a 47-acre working farm dating back to 1697. We are a public resource, visited by over 400,000 people each year. The site includes a landmark farmhouse, glass greenhouse, and restored barns which give us a glimpse into our agrarian past. Its rich glacial soil—which attracted European settlers in the 17th century—is cultivated today using sustainable practices, providing people with the freshest food. We are a New York City treasure where historic structures, productive fields, woodland, and livestock bring agricultural history to life.
